

Accreditation Scheme Proposals

Members may have become aware of calls from some Accreditation Schemes for tighter monitoring of all schemes. With this in mind the IHI have been approached by one scheme enquiring whether we would be interested in running/overseeing an organisation monitoring all the accreditation schemes. Whilst this is seen as a positive step which Council shall pursue, we are also cautious that without all the schemes signing up or being forced by legislation to a scheme that has real powers there will continue to be opportunities for schemes to still function and fail too provide the adequate monitoring of its members failing both itself and our profession.

Minutes from the AGM and the approved accounts for the last financial year will soon be on website for all members to access.

The government have released information leaflets on EPCs for Landlords and Tenants and links can be found at this location,
